Radniroo Co.

The roadmap for the growth of Iran's oil and gas industry is anchored in the expansion of oil and refining sectors. Nasr Radniroo Industrial Company has made it its core mission to execute large-scale and vital projects. These efforts are aimed at overcoming the challenges imposed on the country by international sanctions and revitalizing the growth of Iran's oil industry, particularly in the transportation of oil and petrochemical products.

Established in 2001 with registration number 5110, Radniroo Industrial Company is a subsidiary of Jahad Nasr Kerman Company. It was founded to address Iran's growing energy needs with a mission focused on the development of the oil, gas, and petrochemical industries, and oil and gas transmission lines. The company is also active in power plant maintenance, design and construction of water desalination facilities, transformers and rotating machinery maintenance, production of digital and smart single-phase and three-phase multi-rate meters, construction of electricity distribution networks, power plants, and telecommunication and fiber optic networks.

Radniroo's Activities

Oil and Gas Projects

**9th Nationwide Gas Transmission Linebetween
Dezful and Shushtar**
Client: Iran Gas Engineering and Development Company
Pipeline length: 96 km

Rasht-Chalavand Gas Transmission Line
Client: Iran Gas Engineering and Development Company
Pipeline length: 80 km

Mehran-Rafsanjan Oil Products Transmission Line
Employer: National Iranian Oil Engineering and Construction Company
Pipeline length: 96 km

**9th Nationwide Gas Transmission Line between
Dehgolan and Miandoab**
Client: Iran Gas Engineering and Development Company
Pipeline length: 127 km

Iranshahr-Zahedan Gas Transmission Line
Client: Iran Gas Engineering and Development Company
Pipeline length: 230 km

Jask fuel oil pipeline – the third extent
Client: Petroleum Engineering and Development Company
Pipeline length: 157 km

Radniroo's Activities

Water Projects

- Construction and Operation of Bandar Sirik Water Desalination Plant
- Construction of Salakh Water Desalination Plant
